Create Workflow Using Zoho Creator

Aim

To create and implement workflows in Zoho Creator to automate activities in the Personal Expense & Budget Tracker application.

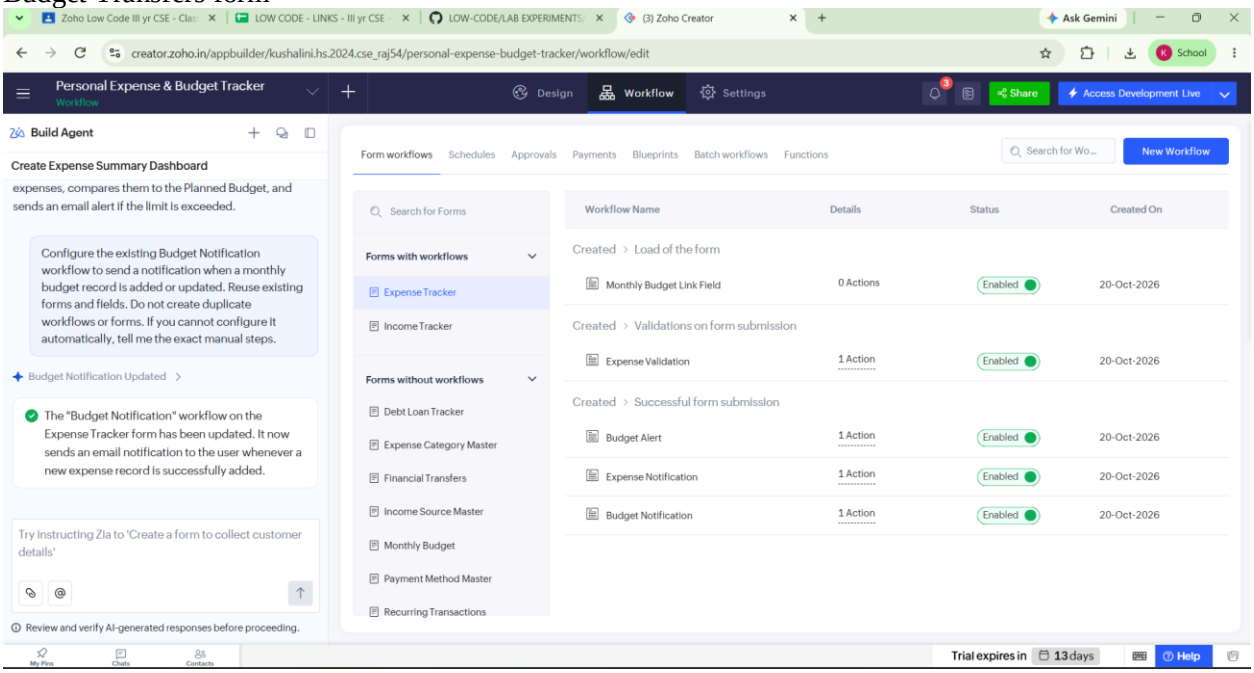

Procedure

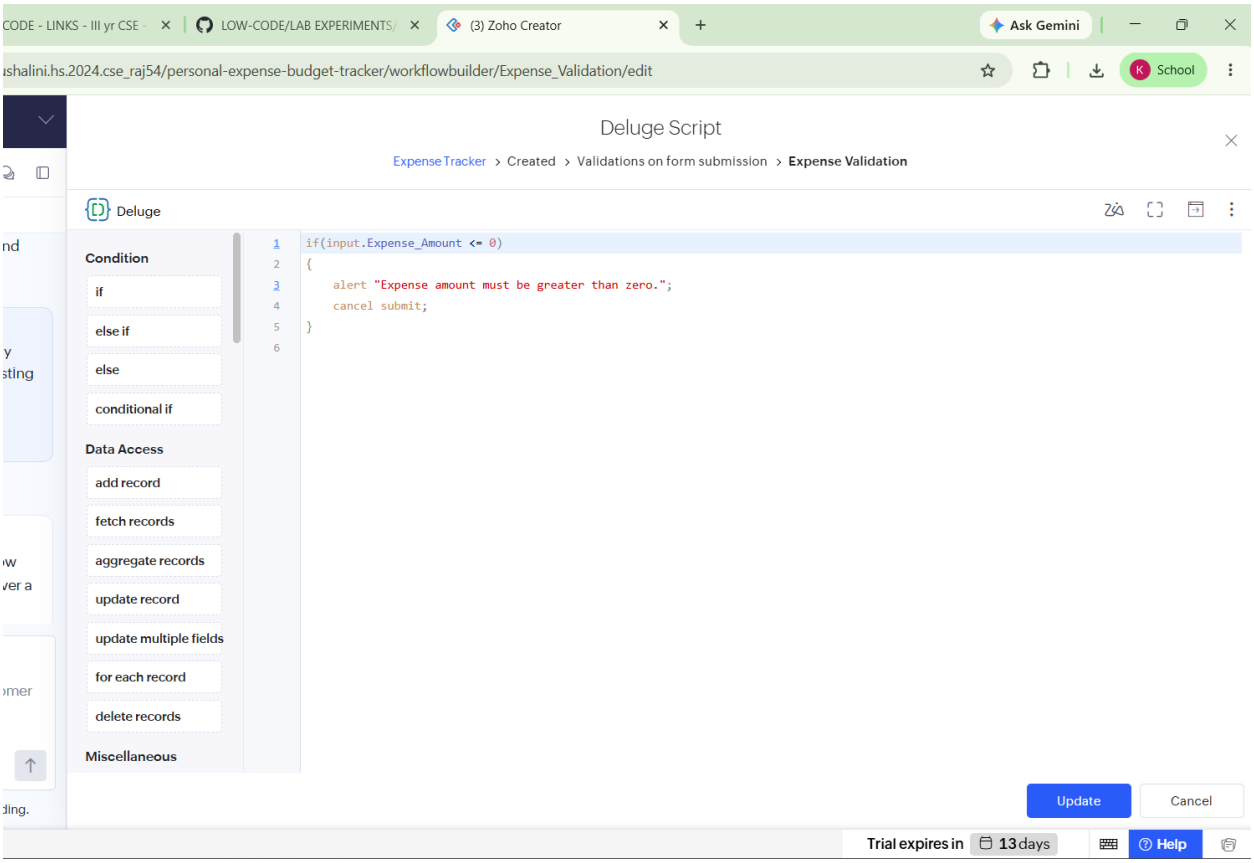

1. Open the Personal Expense & Budget Tracker application in Zoho Creator.
2. Navigate to Workflow → Form Workflows.
3. Configure workflows for forms such as Budget Plans, Expense Entries, Budget Transfers, Receipt Verification, Expense Verification, and Expense Reports.
4. Set appropriate form events, such as record creation and successful form submission, to trigger the workflows.
5. Create the Deluge function Log_Expense_Event to record audit details such as event type, related record ID, date and time, and action details.
6. Configure the relevant workflow to call the audit function when a record is created.
7. Create the Log_Budget_Transfer workflow to automate budget-transfer activities.
8. Save and test the workflows.

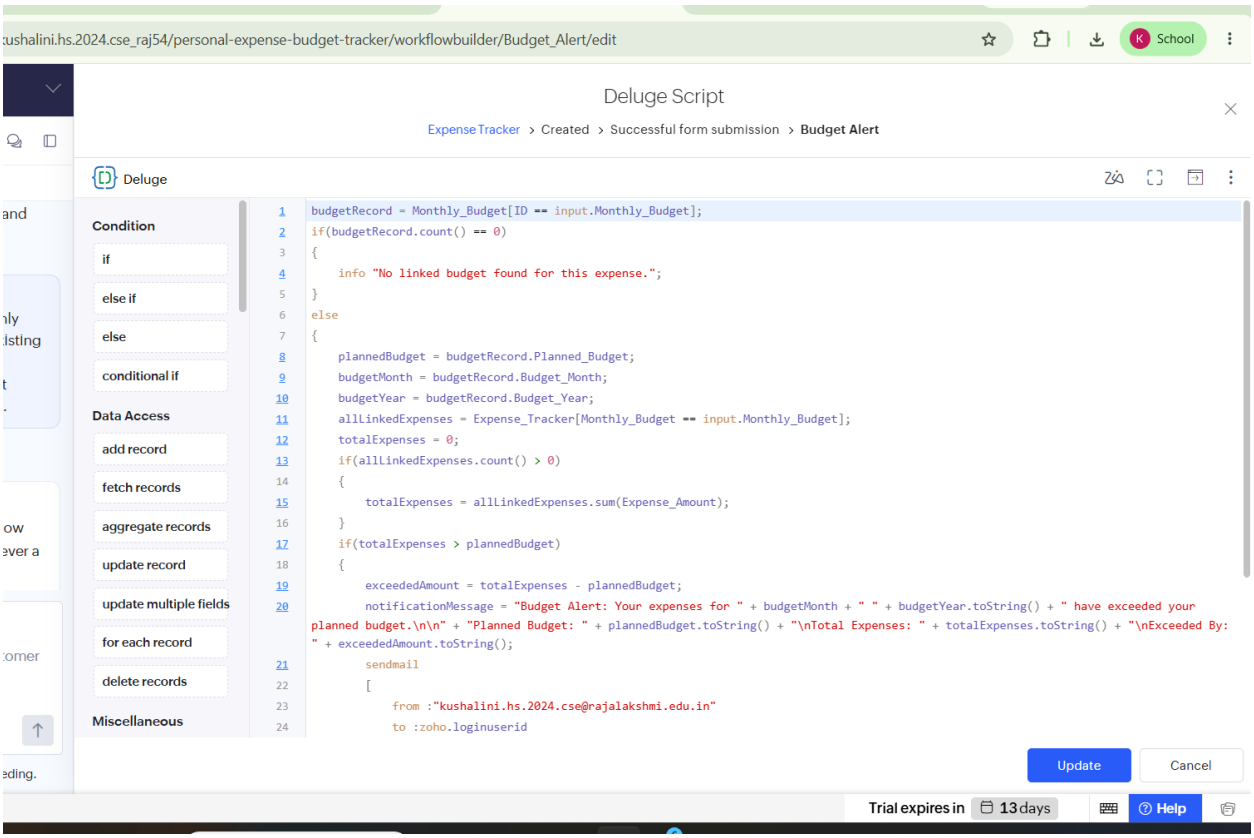

Output

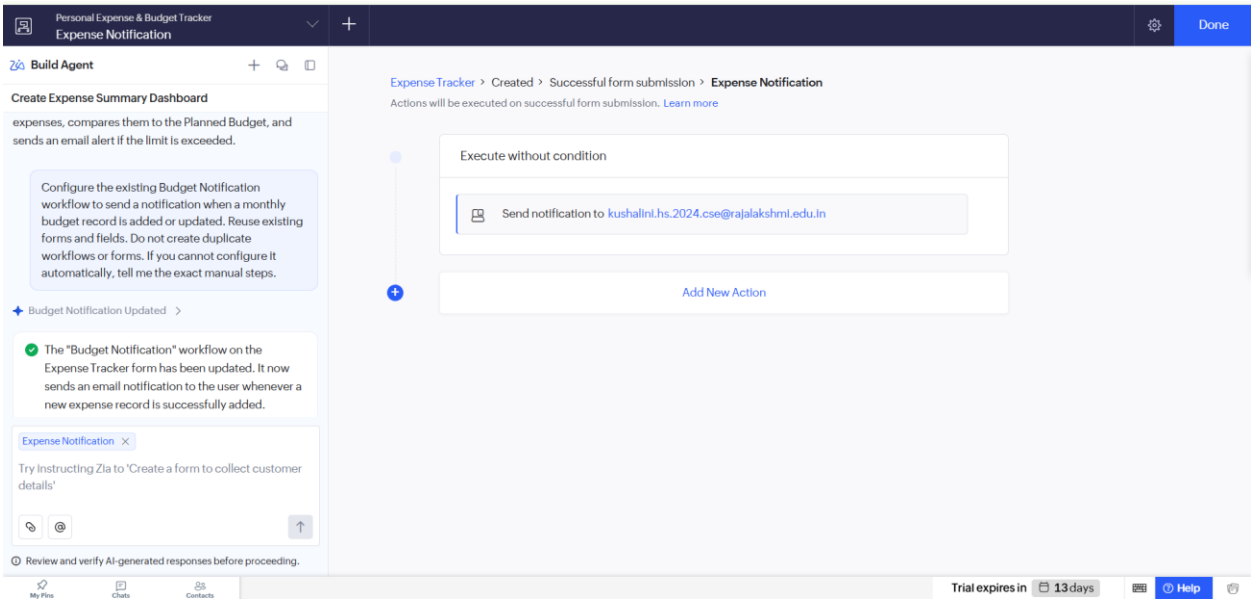

The Form workflows panel lists the forms configured with workflows (Budget Transfers, Expense Entries, Receipt Verification, Expense Verification, Expense Reports, Budget Plans) and the forms (). The

Budget Transfers form

Result

Form workflows were configured in Zoho Creator to automate budget-transfer activities and audit logging in the Personal Expense & Budget Tracker application.
