Creating User Roles and Configuring Permissions in Zoho Creator

Aim

To create different user roles in Zoho Creator and configure appropriate permissions for each role to control access to the Hotel Management application.

Procedure

1. Open the Hotel Management application in Zoho Creator.
2. Navigate to Users and Control → Roles.
3. Click Add Role to create a new user role.
4. Create the required roles, such as:
 - Administrator
 - Service Staff
 - Customer
5. Assign the appropriate permissions to each role.
6. Configure access to forms, reports, pages, and other application components.
7. Assign users to their respective roles.
8. Save the role and permission settings.
9. Log in or test the application with different user roles.
10. Verify that each user can access only the features permitted for their role.
