

EX NO: 4 DASHBOARDS IN ZOHOCREATOR

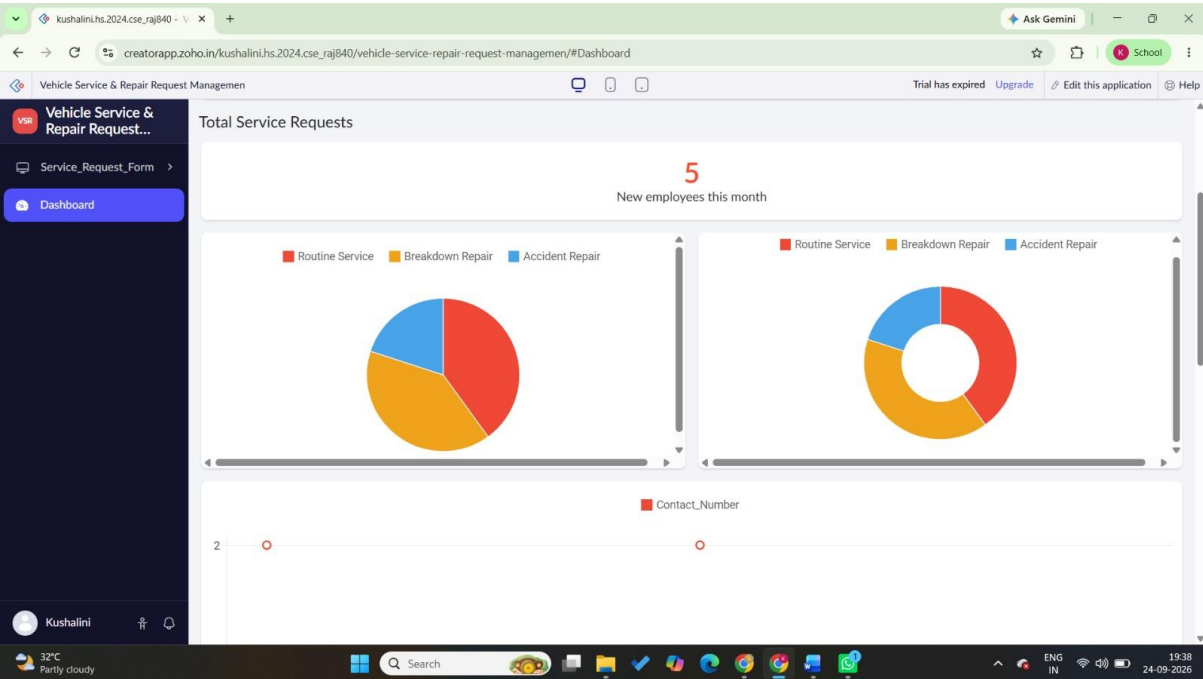

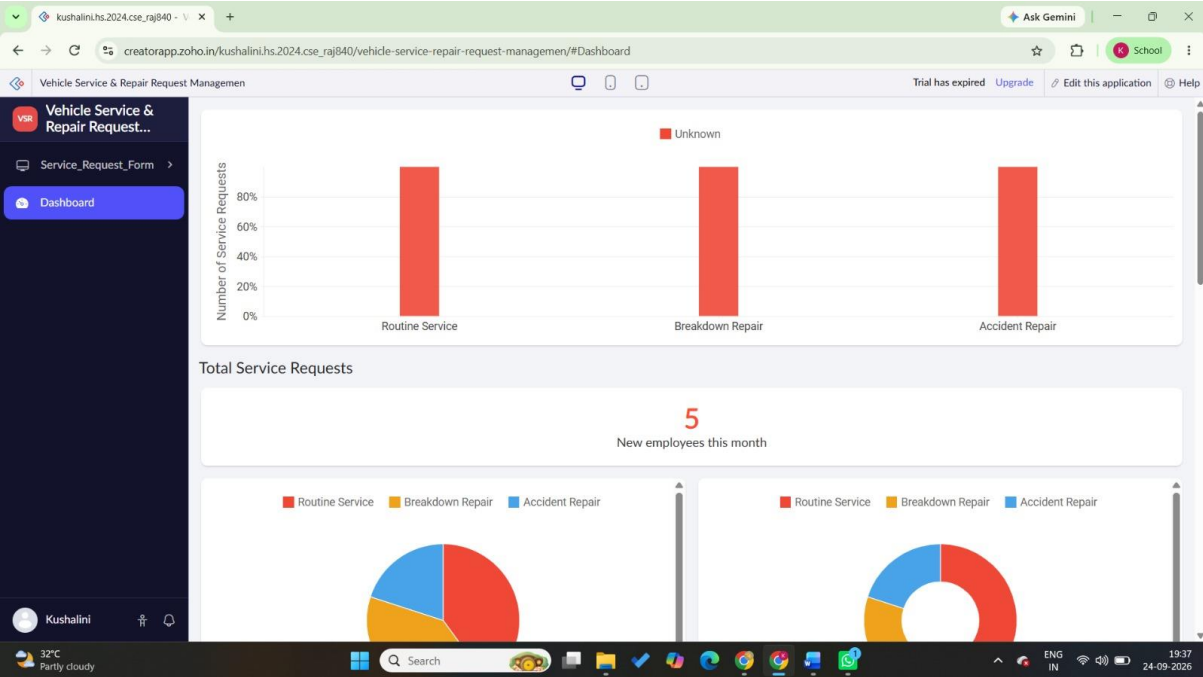

AIM

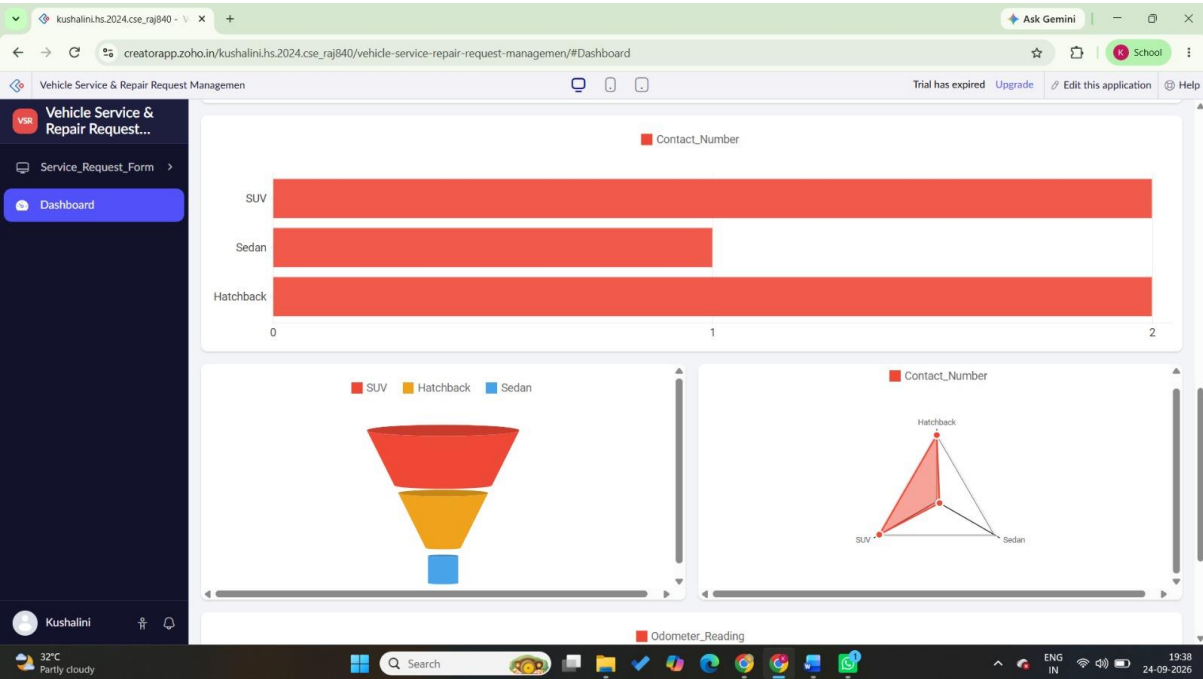

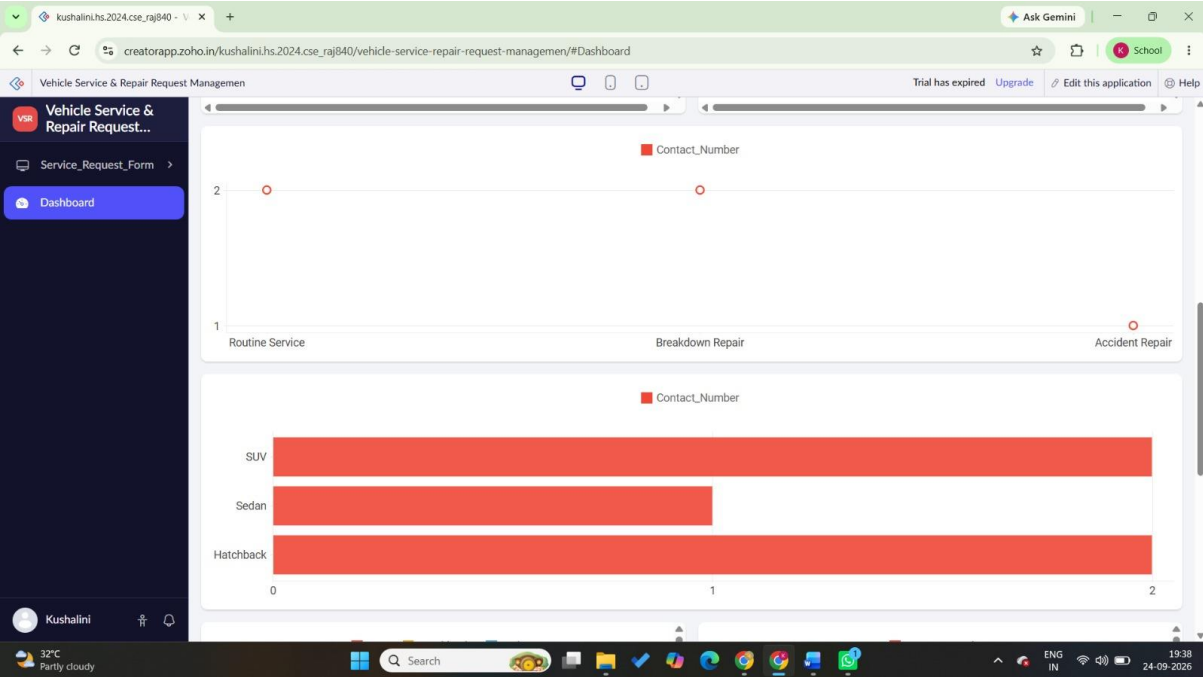

To create an interactive **Vehicle Service & Repair Request Management** dashboard using Zoho Creator to monitor service requests, repair status, priority levels, and other important service information through reports, charts, and summary panels.

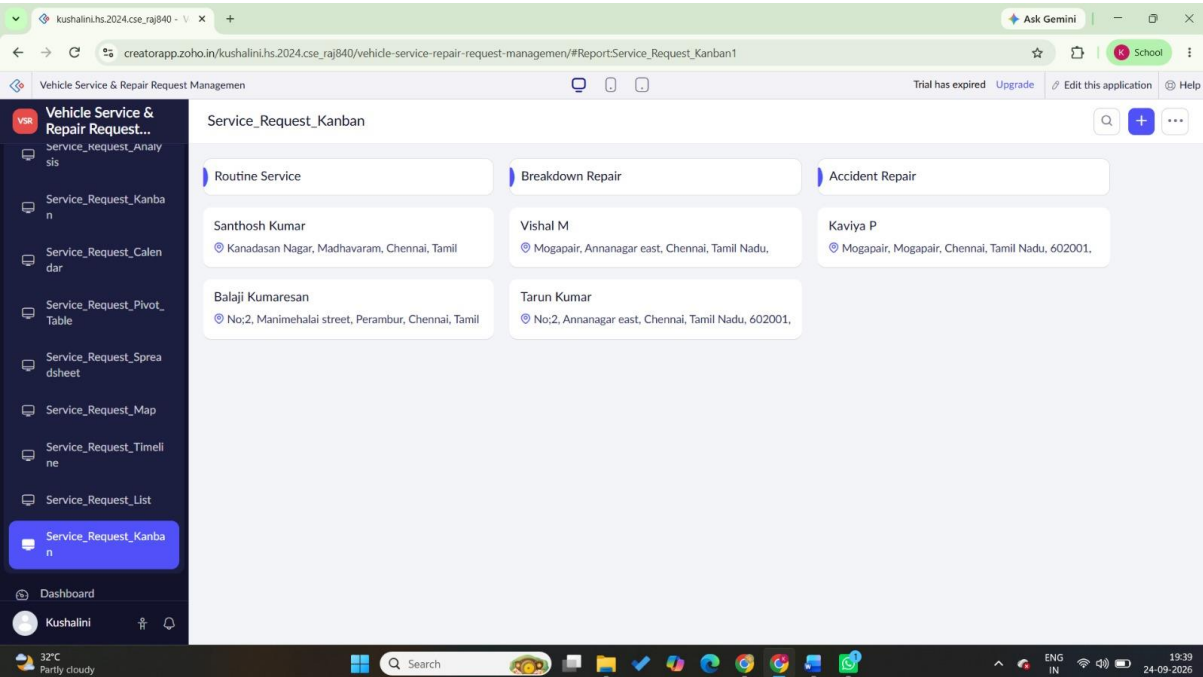

PROCEDURE

1. Open the **Vehicle Service** application in Zoho Creator.
2. Create a new Dashboard/Page named **Vehicle Service & Repair Request Management**.
3. Add the required reports, such as **All Service Requests** and **Repair Status**, to the dashboard.
4. Create summary panels to display important information:
 - Total Service Requests
 - Completed Repairs
 - Cancelled Requests
 - Pending Requests
5. Add charts to visualize the service request data:
 - Request Status using a Pie Chart
 - Priority Level using a Bar Chart
 - Repair Status using a Donut or Radar Chart
6. Arrange the reports, charts, and summary panels properly on the dashboard.
7. Add a search option to easily find a service request by vehicle number, customer name, or request ID.
8. Preview the dashboard and verify that the reports and charts display the correct service request data.

OUTPUT

RESULT

Thus, an interactive Vehicle Service & Repair Request Management dashboard was successfully created in Zoho Creator to monitor service requests, repair status, priority levels, and other service-related information using reports, charts, and summary panels.
